

connectmed

Save Time and Book Online!

ConnectMed is a Patient Portal which allows you to book appointments and order repeat prescriptions online.

There are two ways to get started with the ConnectMed patient portal.

- 1) You can ask your medical practice to create an account for you. Make sure you bring some ID with you such as a driver license.**
- 2) You can also can sign up online by browsing to www.connectmed.co.nz and clicking 'Join' at the top of the page.**

To access all of the patient portal you need to make sure that we have verified your identity. If we created the account for you then you should already have full access. Otherwise next time you are in the clinic, ask a member of the reception team to verify your identity for you.
