

The Doctors Hauraki is closing

As a valued patient at The Doctors Hauraki Corner and The Doctors Fred Thomas we wanted to let you know that the clinic at Hauraki is closing just before Christmas on 24 December, 2021.

For those who visit the Hauraki clinic frequently, rest assured your medical team, the same people you've known and dealt with for years, are transferring to Fred Thomas. This means you can start booking appointments to see them there. Dr Oliver is excited to be working as part of the team-based care at The Doctors Fred Thomas and looks forward to seeing you for consults in this new location.

Why is The Doctors Hauraki closing?

The safety of our patients is our priority, although originally a purpose-built medical centre the current building has outgrown its use. It's no longer up to the safety standards we need to provide you the best care.

This building has a lot of limitations including a lack of parking and accessibility issues for our patients requiring mobility access.

For clinicians to provide great care for their patients they need the support of colleagues, we have worked with the team at The Doctors Hauraki and decided they would receive greater support as part of a bigger team in one location.

Great facilities at The Doctors Fred Thomas

You will find it's a much better experience visiting The Doctors Fred Thomas – there is more parking, and proper disabled and mobility access. The consult rooms are much better equipped to provide additional services because Fred Thomas is a modern purpose-built medical facility.

With a bigger team, we can offer appointments with doctors, nurses, healthcare assistants and many visiting specialists. All the services you receive at Hauraki Corner are available at Fred Thomas and more. It's a convenient, one-stop-shop with a pharmacy, radiology and Habit Physio all on one site.

If you haven't been to Fred Thomas before, we look forward to showing you around when you have an appointment or when the alert levels allow. There is a lot to see, and the team look forward to welcoming you.

Enrolment

The two practices have always worked closely together. Because Hauraki is a satellite clinic, it means you're already enrolled at The Doctors Fred Thomas, we have your comprehensive medical history accessible to the team, so there is nothing for you to do.

We understand these changes may be concerning for some people, and we encourage you to talk with us. We're here to help.

We look forward to seeing you at The Doctors Fred Thomas clinic.
