Occupational Health Services

Keep your workforce healthy.

Come to us for:

- Medicals
- Workplace injuries
- Vaccinations
- Healthy heart check
- Drug and alcohol testing

Keeping your workforce healthy & well

The Doctors medical centres can help you look after your employees with Medicals, regular health checks and vaccinations.

Getting the right advice will help you look after the health and wellbeing of your employees.

Safe approach that saves time and money

We can treat your employees after an injury. Our experienced Medical Centre teams, plan a return to work after an injury. It often means they have less time off. Recovery may not always mean staying at home – returning to work with reduced duties might be the best option. Our doctors and nurses can work together with ACC and Insurance companies throughout this process.

We help your employees

- Stay healthy and safe
- Have less time off
- Plan a return to work
- Be more productive in the workplace

Highly accessible

As one of the the largest nationwide medical centre network in New Zealand we have a local The Doctors near you. Visit one of our participating practices for your occupational health services.

Go to www.thedoctors.co.nz for more details.
